LIST OF CONTENTS

Number 1

Guy Picard and **Marc Gaudry**	1	Exploration of a Box–Cox logit model of intercity freight mode choice
Kenneth Button and **Peter Nijkamp**	13	Economic stability in network industries
Cornelia Dröge and **Richard Germain**	25	The design of logistics organizations
Patrick S. McCarthy and **Richard S. Tay**	39	New vehicle consumption and fuel efficiency: a nested logit approach
Neil Bania, Paul W. Bauer and **Thomas J. Zlatoper**	53	U.S. air passenger service: a taxonomy of route networks, hub locations, and competition
Theodore P. Stank and **Patrick A. Traichal**	75	Logistics strategy, organizational design, and performance in a cross-border environment

Number 2

Yoshinori Suzuki and **John E. Tyworth**	87	A theoretical framework for modeling sales–service relationships in the transportation industry
Oh Kyoung Kwon, Carl D. Martland and **Joseph M. Sussman**	101	Routing and scheduling temporal and heterogeneous freight car traffic on rail networks
Ann M. Brewer and **David A. Hensher**	117	The importance of organisational commitment in managing change: experience of the NSW private bus industry
Robert E. Looney and **Peter C. Frederiksen**	131	Rail track expansion in developing countries in the 1980s
Ronald D. Anderson, Roger E. Jerman and **Michael R. Crum**	137	Quality management influences on logistics performance
Paul M. Needham and **Philip T. Evers**	149	The influence of individual cost factors on the use of emergency transshipments
Jaideep Motwani, Ashok Kumar and **Zubair Mohamed**	161	Ethical behavior of Indian purchasing managers
W. G. Waters II	169	Book Review

Number 3

Linda K. Nozick and **Mark A. Turnquist** 173 Integrating inventory impacts into a fixed-charge model for locating distribution centers

Marvin Prater and **Michael W. Babcock** 187 Determinants of profitability of grain dependent short line railroads

Laura Meade and **Joseph Sarkis** 201 Strategic analysis of logistics and supply chain management systems using the analytical network process

P. Fraser Johnson 217 Managing value in reverse logistics systems

Hokey Min 229 A personal-computer assisted decision support system for private versus common carrier selection

Paul Hooper 243 Book Review

Number 4

Jong-Hun Park and **Anming Zhang** 245 Airline alliances and partner firms' outputs

Walid M. Abdelwahab 257 Elasticities of mode choice probabilities and market elasticities of demand: Evidence from a simultaneous mode choice/shipment-size freight transport model

Arne Jensen 267 Competition in railway monopolies

James H. Bookbinder and **Neil S. Fox** 289 Intermodal routing of Canada–Mexico shipments under NAFTA

305 Erratum

307 Volume Contents
